

THE DAILY DIVOT AN ANNUAL PULICATION

2018 was a very nice year in Michigan if you weren't here before mid May and left by late September. It looked like we were off to a good start when we lost all our snow in the last week of February, but winter came back for March and almost all of April.

When the weather finally broke we had a pretty nice summer. Mostly warm, just enough rain to keep things nice without interfering with golf too much. The

FRIENDS OF THE TAMARACKS

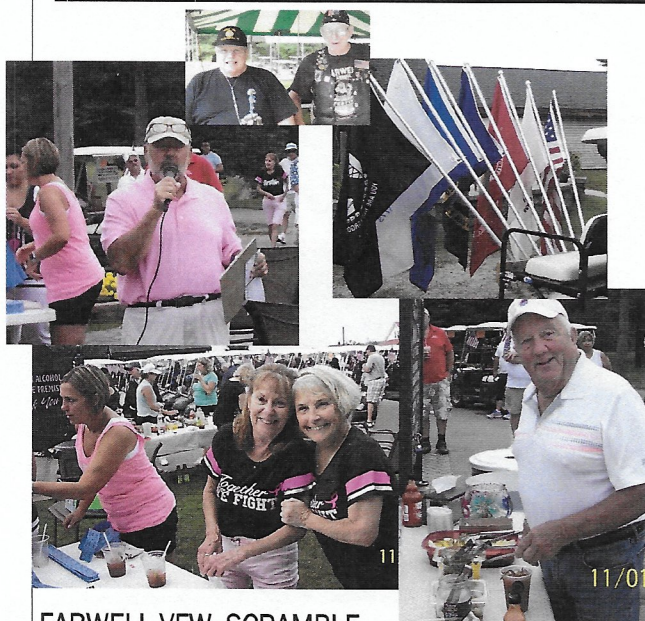

got off to an early start with the Brad Van Pelt one man scramble in May. Our great friends had raised enough to install asphalt onto the cart paths around the 6th & 8th tees. Dozens of caring people who contribute to improve the course that they play on.

Where does that happen??? Right here in Frost Township. I'm sure that you know that the golf biz has been tough for quite a while now, but thanks to your support year after year The Tamaracks is looking to the future. We love you all!! After the nice summer we were ready to close out with a nice fall. It didn't happen. Beginning in mid September the daily rains came and wiped out most all the play in October. All-in-all we've had a couple of good years with a modest increase in play. Most importantly, we still have fun around here!! We thank you for that, and hope you have many more smiles in the years to come.. See you in the Spring!!!!

NEW MAJOR!!

There will be a new MAJOR coming this year..

For now it will be called the "RELATIVE RIVALRY", but that may evolve into something else. Here's what we know now. It will be a 4 person scramble with the team made up of relatives. (brothers, sisters, kids, parents, cousins, uncles, aunts, in-laws). The first RR will be held on Saturday June 1st, with foursomes going off the first tee beginning at 1:00 and every 9 minutes until we're all out. This will be open only to our regulars and their relatives. Can't find four relatives? Rent one! Or play with 3 or 5 players, we don't care,
